

AT THE ROOT OF THE BEST MALTING VARIETIES.

*Grow to expect the best*

Name: **RGT PLANET**

Species: **SPRING BARLEY**

End market: **MALTING**

Type: **CONVENTIONAL 2 ROW**

CHARACTERISTICS:

- > Highest yielding fully approved spring barley on RL
- > UK and European export markets
- > Excellent agronomic profile
- > Excellent grain quality
- > Consistent performer

RGT Planet.  
Recommended List 2018  
Highest yielding spring barley.

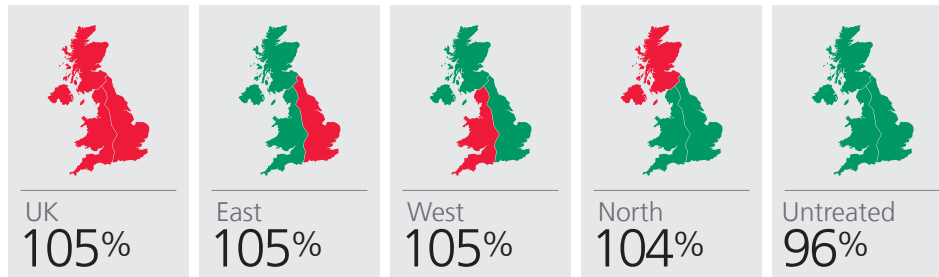

RGT Planet.  
Full MBC approval for  
brewing list 2018

## Variety Data: RGT PLANET

### VARIETY OVERVIEW:

RGT Planet is the highest yielding spring barley on the Recommended List that is fully approved for brewing use. It has cemented its number 1 position after another good year in the field and in trials. It is agronomical strong and produces excellent quality grain, traits that have helped it become the leading spring barley in the UK. It will also be the most widely grown spring barley variety across Europe in 2018, providing plenty of opportunities for growers to market their grain. RGT Planet has become widely accepted by end users across the whole of Europe after the early acceptance by the IBD, CBMO and Heineken. RGT Planet is also gaining a strong following among livestock farmers across the UK thanks to its excellent yield and stiff, plentiful straw.

### YIELD:

### AGRONOMICS:

Ripening	0
Height	75
-PGR Lodging	7
Brackling	8
Spec weight	68.1

### DISEASE:

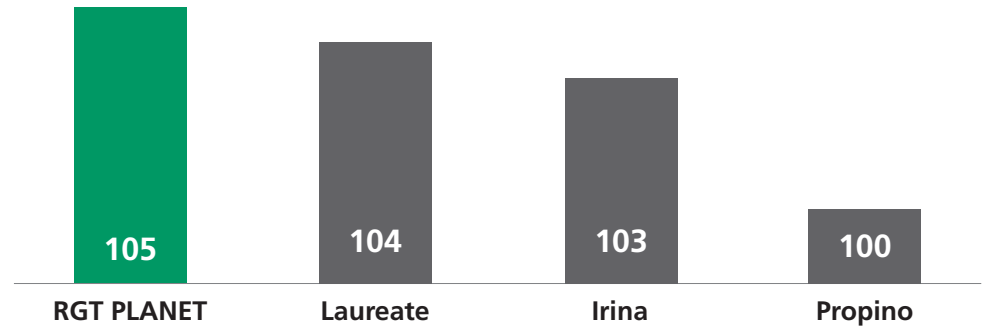

Mildew	9
Yellow Rust	[5]
Brown Rust	4
Rhynchosporium	6
Ramularia	6

### QUALITY:

% Screenings 2.25mm	1.3
% Screening 2.5mm	3.5
% Nitrogen Content	1.40

## Performance Data: RGT PLANET

### YIELD PERFORMANCE:

### AGRONOMICS PERFORMANCE:

	Lodging (-Pgr)	Height (cm)	Ripening (+/- Concerto)	Brackling	Spec Weight
RGT PLANET	7	75	0	8	68.1
Laureate	7	73	+1	8	66.6
Irina	8	71	0	9	66.3
Propino	7	77	-1	8	68.7

### DISEASE RESISTANCE PERFORMANCE:

	Mildew	Yellow Rust	Brown Rust	Rhyncho	Ramularia
RGT PLANET	9	[5]	4	6	6
Laureate	8	[6]	5	6	6
Irina	8	[6]	4	5	6
Propino	6	3	5	5	6
